

XPG INFAREX R10

THE PERFECT ARENA FOR BATTLE

INFAREX R10 Gaming Mousepad

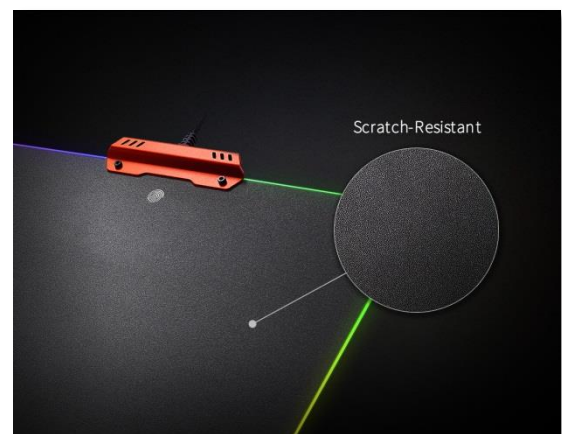

Every epic battle needs an equally grand arena! The INFAREX R10 gaming mousepad boasts unique RGB lighting effects, which can switch between lighting modes simply by tapping the switch button on the mousepad. The rugged PVC surface is resistant to scratches and abrasion, which means users can move the mouse easily and quickly with complete peace of mind. With the precision offered by the INFAREX R10, the outcome of every battle will never be in doubt!

RGB Lighting Effects

The INFAREX R10 comes with three different lighting modes: mono-colored lights, cycling lights, and pulsing lights. Gamers can configure their gaming experience according to their preferences.

Durable & Scratch-Resistant

The INFAREX R10 is made of tough, scratch-resistant PVC, allowing it to be used on a variety of surfaces. The mousepad itself has the perfect amount of friction.

Anti-Slip Rubber Feet on the Base

The underside of the INFAREX R10 is made of high-quality silicone rubber, which provides the mousepad with superior grip on the surface underneath. This means it will not shift even when the user makes large mouse movements.

Gold-Plated USB Connector for the Stable Connector

The INFAREX R10 is equipped with a gold-plated USB connector, which ensures the stability of the signal for the RGB effects, even in the heat of battle. This ensures uninterrupted ambiance for the users
